

Health/healthcare Issues

Forbes (2013)

<http://www.forbes.com/sites/leahbinder/2013/02/21/the-five-biggest-problems-in-health-care-today/#4f0333cc16e2>

- Too much unnecessary care
- Avoidable harm to patients
- Billions of dollars being wasted
- Perverse Incentives in how we pay for care
- Lack of transparency

Price Waterhouse Cooper (2017) There is a shift towards Value-based care

[Home](#) > [Health industries](#) > [Top issues 2017](#)

Adapt for value

1. Under a new administration, the fate of the ACA remains unclear
2. Pharma's new strategic partner? Patients
3. Easing the training wheels off value-based payment
4. Insert your card here for healthcare

Innovate for value

5. Paging Dr. Drone: It's time to prepare for emerging technologies
6. The battle against infectious diseases sparks invention
7. Rx cauliflower: Nutrition moves to population health

Build for value

8. Putting the brakes – gently - on drug prices
9. A year of new partnerships and collaborations
10. Preparing medical students for work in a value-based world

Healthcare Issues

New Administration!

Under any healthcare reform, consumers care most about their premiums

Consumers pointed to the cost of their monthly premium, coverage of services and medications, and provider network as their most important considerations when choosing a plan from a health insurance company.

Source: PwC Health Research Institute Consumer Survey, 2016

President-Elect Trump has stated he intends to replace and repeal the ACA.

Healthcare Issues

Healthcare Opportunities

Consumers were asked whether they would take advantage of free advice for weight management or help with diet-related medical conditions from a nutritionist or dietitian from each of these entities.
Percentage of respondents answering yes:

Nutrition becomes a focus
as a way to prevent
medical problems and
improve overall health.

The demand stimulates
Innovation!

Who pays? And how has it changed over the past 50 years?

In the past 50 years, the way health care is financed has changed, with private payers and public insurance paying for more care. This interactive graphic shows who paid for the nation's health care and how much it cost.
